Sep 9, 2022 Version 2.6.2 Optimize UI and fix some bugs. This is an excellent Picture storage App which has more ways to sort your pictures than any other app! It allows you to sort pictures by size, created date, alphabetical, and by the date you saved it to the app. These may not seem critical to some but it really helps you identify and delete duplicate pictures. This can save an enormous amount of space. It has a lot of other functions as well and is well worth the money. I'm glad the developer listened to the suggestions - the app now supports Live Photo's. Overall it seems to work well (a few other additional features might be nice), however, my main gripe about it is fixed! EDIT: I reviewed this app several months ago and at the time it didn't support Live Photo's. Unbeknownst to me it essentially turned all the Live Photo's I imported into downgraded static photos which couldn't be restored to the original format. Needless to say I wasn't too happy about that and left a one star review. Now that the app has the Live Photo support I can start using it again! i'm sorry for your problem, please contact "GalleryVault@thinkyeah.com". And we will solve the problem for you. Just what I was looking for. Needed an app like this with great sorting and organize options. Most of these Hide Apps don't include it. Great combination of features that most apps like this make you pay for. My only request (Which has been mentioned here already) is having an edit option within the app would be awesome. GREAT APP either way! The developer, Think Yeah, indicated that the app's privacy practices may include handling of data as described below. For more information, see the developer's privacy policy. The following data may be used to track you across apps and websites owned by other companies: The following data may be collected and linked to your identity: The following data may be collected but it is not linked to your identity: User Content Identifiers Usage Data Diagnostics Privacy practices may vary, for example, based on the features you use or your age. Learn More Developer Website App Support Privacy Policy Name Gallery Vault Pro Developer GalleryVault Dev Team Genre Apps Video Players & Editors Latest Version 3.17.12 Size 10MB MOD Features Premium Unlocked Mode Online - Offline Operating System Android 4.4 and up Price Free GalleryVault is an app that allows you to hide photos or videos on your device to access the content only. You can build as many directories as you need. Free download the latest version of Hide Pictures And Videos - Gallery Vault Apk Premium Unlocked v3.17.12 + Key for android from Lintas Droid with direct link and Google Drive. Not only can you hide your multimedia content with GalleryVault, you can even hide the icon of the app so that nobody knows it is installed. Nobody will suspect something this way. Of course, you can see all the images and videos on your device from the app itself. Another interesting security option in GalleryVault is that both a real and a fake PIN can be set up. This means that if someone enters the fake PIN, they can open the app, but only the pictures you selected will be seen. GalleryVault is a great security app that keeps your most private photos safe and sound within a virtual vault. GalleryVault is a fantastic privacy app that easily hides and encrypts photos, videos and other files you don't want to see from others. GalleryVault can hide its application icon and safeguard your privacy. In this secure vault you can import your private images and videos, and nobody knows what it is. Moreover, GalleryVault has the beautiful design, it gives you the smooth and amazing experience of media browsing. Gallery Vault Featured: Hide pictures, hide videos, and hide other file types The hidden files are all encrypted Support the hiding icon and nobody knows that the Gallery Vault except you exists. Support SD card hiding and moving your encrypted files to SD card to store your device, including Android 4.4(KiKat), 5.0(Lollipop), 6.0(Marshmallow) and 7.0(Nougat)+. Integrated with private web browser and supports the downloading of all images and videos on a single tap The beautiful, smooth and elegant user experience No storage limitation to hide photo and hide video Shake your phone to close Gallery Vault in a hurry Support hiding and playing GIF images Support Break-in Alerts and know who is trying to break-in Fake passcode support and display fake content when you enter fake passcode. Fingerprint support (fingerprint scanner support only for the samsung device) With GalleryVault, your privacy is well protected. This app uses the permission of the device administrator. It's up to SD card users to avoid uninstalling data loss. NEVER changes GalleryVault to your device. ----- FAQ ----- Are my hidden files stored online? No. No. Your files are only stored on your device, so be sure to backup all your hidden files before you move to a new device or factory reset. What can I do if I fail to launch GalleryVault from Dialer? Sometimes Gallery Vault may not be able to respond to the dial event on some devices after the system or other apps have killed Gallery Vault or after the device has restarted. You can then try one of the following methods: Use your device built-in browser to visit this page: Tap the "Manage Space" button in System App Detail Info page of Gallery Vault (System Setting->Apps->GalleryVault) What can I do if I forgot my passcode? Please find the latest mail we send to you (by searching your mailbox for the keyword thinkyeah) and follow the steps in the mail to reset your passcode. If you can't find the mail, you can send the following mail steps: Launch Gallery Vault locking page. If your icon is hidden, tap the "Manage Space" button in System App Detail Info page of Gallery Vault (System Setting->Apps->GalleryVault). Try to unlock and fail for 2 times, then a Forgot button will show. Tap "Forgot" button and tap "Resend Auth Email" button in the dialog. Supported languages: English, Russian, Spanish, French, German, Italian, Japanese, Korean, Indonesian, Vietnamese, Thai, Arabic, Hindi, Simplified Chinese, Traditional Chinese.
